Project Officer • Community
Telehealth
Virtual Environments

We are pleased to issue you the second edition of the BRILLIANT Newsletter. In this issue we meet BRILLIANT's Project Officer and the Coordinator of the Early Supported Discharge (ESD)/ Congé Précoce Assisté (CPA) program at CLRC. We go inside one of the many BRILLIANT research projects. We also explore the rapidly changing landscape of Telehealth.

To view the BRILLIANT team and partners see our website: brilliant-cfi.ca

Meet the Project Officer

Lina Petrella, erg. | OT., MSc.
Project Officer | BRILLIANT

What does a Project Officer do?

Lina Petrella was interviewed about her role as BRILLIANT's project officer. We find out what a project officer does, and we are introduced to the infrastructure that guides and supports the many moving parts of BRILLIANT.

BRILLIANT in the Community

Ivy Gumboc, MScA, erg.
*Coordinator ESD
program, CLRC*

Shining a light on BRILLIANT

Ivy Gumboc, the Coordinator for the Congé Précoce Assisté (CPA) program was interviewed by Lina Petrella, BRILLIANT's Project Officer. We find out how the CPA program integrated telerehab services amidst the COVID-19 pandemic. Ivy and Lina also discuss BRILLIANT's contributions to that transition and future plans for developing telerehab within the CPA program.

A Paradigm Shift in Telehealth

Lessons learned using telehealth during a pandemic and looking ahead to a brighter future.

Reflecting on the past few months, Monica Slanik interviewed Dr. Zachary Boychuck, a Postdoctoral Fellow, about the PCHI Lab's research during COVID-19 to rapidly roll-out telehealth in the context of an Early Supported Discharge program for stroke.

Inside BRILLIANT

Virtual Environments (VEs) in Rehabilitation

Dr. Anouk Lamontagne and her team are in the midst of a study using VEs to determine the healthy patterns of gaze behavior when avoiding pedestrians under single and dual-task walking.
